

# Kolokacja

The diagram illustrates the progression of cloud computing models. It consists of five horizontal bars of increasing length, each representing a model. The bars are stacked vertically, with each subsequent bar starting further to the right. Between each bar, a grey arrow points downwards to the next bar, indicating the addition of a specific layer or component. The models and their components are: Kolokacja (bare metal), IaaS (+ sprzęt), PaaS (+ platforma), SaaS (+ aplikacja), and S+S (+ pudełko).

+ sprzęt

## IaaS

+ platforma

## PaaS

+ aplikacja

## SaaS

+ pudełko

## S+S
